

Summer talks in Bologna on Pediatric and Congenital Cardiac Surgery

FIRST EDITION

The double
outlet right
ventricle

JUNE
10-11
2022

INTERNATIONAL
MEETING

BOLOGNA

CONGRESS PRESIDENTS

Gaetano Domenico Gargiulo, Bologna - Italy
Emanuela Angeli, Bologna - Italy

HONORARY PRESIDENT

Pascal Vouhè, Paris - France

FACULTY*

Marta Agulli, Bologna - Italy
Emanuela Angeli, Bologna - Italy
Anwar Baban, Rome - Italy
Anna Balducci, Bologna - Italy
Damien Bonnet, Paris - France
Lucio Careddu, Bologna - Italy
Mario Carminati, Milan - Italy
Valentina Ciriello, Bologna - Italy
Pedro J. del Nido, Boston - USA
Andrea Donti, Bologna - Italy
Gabriele Egidy Assenza, Bologna - Italy
Roberto Formigari, Rome - Italy
Lorenzo Galletti, Rome - Italy
Gaetano Domenico Gargiulo, Bologna - Italy
Luigi Lovato, Bologna - Italy
Victor Hraska, Milwaukee - USA
Emanuela Marcelli, Bologna - Italy
Carlo Pace Napoleone, Turin - Italy
Massimo Padalino, Padua - Italy
Gianni Pedrizzetti, Trieste - Italy
Francesco Dimitri Petridis, Bologna - Italy
Clauss Jurgen Preusse, Bonn - Germany
Andrea Giulio Quarti, Bologna - Italy
Olivier Raisky, Paris - France
Ehrenfried Schindler, Bonn - Germany
Aurelio Secinaro, Rome - Italy
Gaetano Thiene, Padua - Italy
Israel Valverde, London - UK
Pascal Vouhè, Paris - France

** Faculty subject to change*

FRIDAY, JUNE 10

Session I

Anatomy, aetiologies and prenatal and postnatal diagnosis of double outlet right ventricle

Session II

Advanced imaging diagnosis

The role of 3D echocardiography, MRI and CT scan, and new 3D printing to define the correct approach to a complex cardiac defect as DORV

Augmented virtual reality

Session III

Surgical treatment

Several and complex options of surgical strategies shared with a highly specialized pediatric cardiac intensivist and anesthesiologist team

SATURDAY, JUNE 11

Results and follow up of surgical correction with the participation of surgeons and interventional cardiologist

Session I

Surgical outcome of DORV

Session II

The role of interventional cardiology

Session III

Round table between the experts: presentation of special and uncommon cases

Luncheon panels

- The role of cardioplegia and the role of anti-inflammatory response during cardiopulmonary bypass
- High sensitive monitoring during cardiac surgery in neonates
- Virtual reality and 3D printing technology
- Transcatheter pulmonary valve procedure
