Marco Solinas, Massa - Italy

Alexander Weymann, Oldenburg - Germany

Manuel Wilbring, Dresden - Germany

Joseph Zacharias, Manchester - UK

Carlo Zingaro, Ancona - Italy

Konstantinos Zannis, Paris - France

The **Ancona Live Course** will be a **two-day in-person meeting** on **June 13th and 14th, 2024** and will focus on **Minimally Invasive and Trans-Catheter Interventions** for patients with **Mitral and Tricuspid Valve Diseases**.

To enhance the learning experience, the interventions will be divided into key pillars that the most experienced surgeons in the field will describe in detail and discuss interactively with audience.

The principles learned during the **morning sessions** will be put into **practice** during the **afternoon sessions** with **four live cases** entirely broadcasted, without interruption, from our operative theatres in Ancona.

A truly practical attitude and interaction for a highly educational opportunity.

TOPICS

DAY 1 – June 13th

▶ **Primary MR**

Techniques for Cannulation, Valve exposure, Aortic Occlusion, MV repair

▶ **Hot Topic Lectures**

▶ **LIVE from the Operative Theatres:**

MV repair: endoscopic vs direct view

1. Fully Endoscopic MVR
2. Transaxillary direct view MVR + AFib abl + LAA closure

DAY 2 – June 14th

▶ **Preparing the Surgeon for the Heart Valve Team**

▶ **Interventions for Secondary MR, TVR, A Fib ablation, LAA closure**

▶ **Hot Topic Lectures**

▶ **LIVE from the Operative Theatres:**

Combined Mitral and Aortic Interventions

1. Transaxillary direct view AVR + MVR
2. TAVR + mitral TEER
