ERAS® Society Secretariat

The ERAS® Society is delighted to announce that its 2025 Congress will be held from September 17th-19th at the Lingotto Conference Centre in Turin.

This iconic building once housed the FIAT car factory. Turin is a wonderful city of culture and cuisine in Northern Italy, well-served by air, road, and rail. The Congress President is Professor Luca Gianotti from Università degli Studi di Milano-Bicocca and POIS the Italian ERAS® Society.

The program will include:

- The ERAS® Educational Course (day one)
- Specialty Sessions (day one)
- Two full days of lectures and interactive sessions. There are three keynote lectures, and throughout, leading clinicians and academics will present on all aspects of ERAS® physiology and pathophysiology, including surgery, anesthesia and perioperative medicine, nursing, allied health, and patient experience. We will cover established areas, debate new advances, and look at the role of AI, robots, and databases in improving patient care and outcomes. We will discuss various aspects of implementing ERAS® in high, middle, and low-income countries. We will explore how our guidelines have shaped ERAS® practice.
- Abstract submission: all accepted abstracts presented during the congress will be published in ESPEN Clinical Nutrition.
- Do join us for a historic meeting as we celebrate 30 years since ERAS® concepts were first published and 20 years since our first guidelines were produced!
